1986 HEGIS/IPEDS SUMMARY REPORT

The data provided throughout this report are compiled from aggregate forms completed by individual Massachusetts colleges and universities as part of the Integrated Postsecondary Education Data System (IPEDS) formerly known as HEGIS administered by the Board of Regents and the National Center for Educational Statistics, U. S. Department of Education. Only data pertaining to those institutions authorized to grant degrees in Massachusetts, or which have degree granting authority in association with another institution, are included in this report. Examples of the latter case include the School for the Museum of Fine Arts which grants degrees through Tufts University, and the Forsyth School of Dental Hygienists, the students of which receive degrees from Northeastern University.

This report is presented in four sections: the first gives an overview of all Massachusetts colleges and universities, both public and independent; the second provides institutional data from the twenty-nine public colleges and universities supported by the state and two public, non-state supported two year colleges; the third provides institutional data from 89 of the 93 independent colleges and universities; and the fourth section provides historical enrollment and degree data for the public and independent sectors from 1978 to 1986. The first three sections include data on Student Enrollment (Fall 1986); Degrees Granted (July 1, 1985 through June 30, 1986); and Racial/Ethnic data. Each part of the report is prefaced with an explanation of the categories used to report data and is annotated where appropriate to facilitate interpretation.

An attempt is made to present the data in a form which is useful to a variety of users. The presentation of data parallels comparable information provided in previous summary reports. The Board of Regents would like to express thanks to the 120 of the 124 higher education degree granting colleges and universities which completed the HEGIS/IPEDS forms and whose data appears throughout this report (see Appendix 1 for listing). Four colleges (American Institute for Banking, Pine Manor College, Eastern Nazarene College, and Woods Hole Oceanographic Institute) chose not to participate in any of the HEGIS/IPEDS surveys included in this report.

SECTION I

AGGREGATE PROFILE DATA

STUDENT ENROLLMENT DATA

Student enrollment data presented represent headcount enrollment for the fall of 1986. The data are displayed in various formats, segregating full and part-time students, undergraduates, graduates and first professionals, and classified and unclassified students. The data are systematically presented by institutional level (two year, four year,[1] and university) and by sector (public/independent).

Institutions reporting enrollment figures did so by sex, level (undergraduate, etc.) and status (classified/unclassified, full/part-time). Unless otherwise noted all enrollment figures include both classified and unclassified students. Classified students are those who have formally matriculated as candidates for a degree. Unclassified students are those who are taking courses for credit but are not, according to institutional records, degree candidates at the time they are reported. The data indicate that the bulk of unclassified students are also part time.

Because of the nature of the definition of "unclassified" students, it is often difficult for an institution to accurately categorize them according to level - either undergraduate or postbaccalaureate. As a result, it cannot be assumed that unclassified students are reported in the same consistent or uniform manner as the classified enrollment figures. Because the data on unclassified students are often deemed less reliable than that on classified students, data on both groups are presented separately for those who require data on students currently enrolled in degree programs.

The first figures presented in this section provide composite data on public and independent sector enrollment. The public sector data include enrollments at the twenty-nine (29) state supported colleges and universities and two (2) non-state supported public two year colleges. Essex Agricultural and Technical Institute, and Quincy Junior College. Unless otherwise noted, enrollment figures for these two institutions are included either in public sector composite data or in the two year public college data as appropriate. It should be noted that the independent sector data include enrollment at 89 of the 93 independent colleges and universities. The enrollment figures of these 89 independent institutions are included in this report.

---

1. All categories headed "four year colleges" actually include data from four year colleges and from graduate schools, as noted in Appendix I.

RACIAL/ETHNIC DATA ON STUDENTS ENROLLED

The following section provides summary data according to the categories used to report student enrollment status. Racial/Ethnic data are presented by type of institution, sex, enrollment level (undergraduate, graduate, etc.) and status (full/part-time).

Racial/Ethnic categories used in the collection of HEGIS/IPEDS data include the following six (6) designations: Non-Resident Alien; Black, Non-Hispanic; American Indian or Alaskan Native; Asian or Pacific Islander, Hispanic; and White, Non-Hispanic.

Data that were reported as unknown by campuses were prorated across categories using known values. For the independent sector, 20,618 students were reported as unknown, while the public sector had 10,738 students in this category. Therefore, 31,356 or 7.6% of the total number of students state-wide were reported as unknown ethnic background.

DEGREE DATA

The Higher Education General Information Survey (HEGIS) indentifies major fields of study by a two digit HEGIS code classification system.

In this section, data are categorized by degree level, HEGIS code classfication, and sector from which the degree/award came. (Appendix IV contains a complete listing of all HEGIS codes and major field descriptions.)

Missing institutions from this report are Eastern Nazarene College, Mount Ida College, Pine Manor College, and Woods Hole Oceanographic Institute.

DEGREE DATA BY GENDER OF RECIPIENT

Because of numerous requests received for information on the relative number of men and women receiving certain types and levels of degrees, this section presents degree breakdown by gender along with degree level and sectoral classifications.

Missing institutions from this report are Eastern Nazarene College, Mount Ida College, Pine Manor College, and Woods Hole Oceanographic Institute.

Section IV

Historical Enrollment and Degree Data

1978 to 1986

Massachusetts Public and Independent Sector Enrollment and Degree History 1978 to 1986

The historical enrollment and degree data presented in this section are displayed in the following formats.

ENROLLMENT

* Distribution by Race/Ethnicity
* Distribution by Gender
* Full-time versus Part-time
* Enrollment by Institution for the Public Sector
* Enrollment by Institution for the Independent Sector

DEGREES

* Trends in Degrees Conferred by Level
* Percentage Distribution of Degrees by Level
* Trends in Degrees Conferred by Race/Ethnicity

The historical headcount enrollment data provided in this section is based on past and present HEGIS/IPEDS surveys from Fall 1978 to Fall 1986. For comparative purposes, data from institutions that did not report in prior years were estimated and included in the charts. Therefore, these data may differ from past HEGIS Summary Reports which included only those institutions that participated in the survey. This estimation was performed to provide the most complete description of statewide enrollment trends.

The specific institutions that were added to Fall 1986 enrollment data were: American Institute of Banking (1,735), Laboure Junior College (533), Eastern Nazarene (881) and Pine Manor (568). For Fall 1985 American Institute of Banking (1,712) and Mount Ida (1,034) were included. For Fall 1984 American Institute of Banking (1,689), Katherine Gibbs (480), Mount Ida (950) and Eastern Nazarene (860) were added. Roxbury Community College's 1984 data were adjusted to include 989 Continuing Education (CE) students. For the 1982 report year, Roxbury Community College failed to include 380 CE students. These data also reflect the following additions: North Shore Community College (3,762), Westfield State College (1,799) and Roxbury Community College (365) for 1978 and Berkshire Community College (1.437), Roxbury Community College (984) and North Shore Community College (4,122) for 1980.
